History: This message has been replied to.

This is a good memory prompt for me. Have you heard any news regarding the requests for the application records? Since they were officially requested back in October, I would have expected they'd be in hand by now. OK, I know that was snarky. Whatever happened to Jill Bloom sending a note supporting the requests?

RURAL OREGON RESIDENTS AWAIT PESTICIDE EXPOSURE INVESTIGATION RESULTS - KPLU NEWS FOR SEATTLE AND THE NORTHWEST

They believe herbicide spraying by the timber industry is causing health issues in their communities. For years, residents near Blachly and Triangle Lake have complained of pesticide drift from clear-cut sprays. But it wasn't until last spring that ...

Hi Jae - can you provide us with an update on OHA's records request to ODA and ODF?

Also, ran across this media story on the open house. It's the only one we've seen. Thanks, Scott

Hi All,

As most of you know by now the letters from ATSDR re: urine sampling results
went out yesterday. Attached is a set of embargoed talking points we'd like to
have finalized by COB Monday, which makes for a kind of short turnaround time.
So I have to ask you with apologies for the quick response requested to please
take a look at these and get me your comments by noon Monday.

Thanks,
Jae
